

Project:

Vision Australia

Building Type: Commercial

Vision Australia is a not-for-profit organisation that provides services, facilities and information to people who are blind and vision impaired. In order to provide better services and create a sustainable working space, The TVS Partnership in conjunction with JPA&D contacted Solatube Australia about integrating daylight into their new building design.

The Solatube Daylighting Systems contribute to the building's innovative design, as people who are blind and vision impaired will be using the space, Vision Australia had to seek trusted natural lighting options that would not produce heat or glare. A range of Solatube Daylighting Systems were utilised to create the perfect daylighting for Vision Australia's needs.

Products Used

- 19 x Solatube 750DS Tubular Daylighting Systems
- 6 x Solatube 290DS Tubular Daylighting Systems
- 8 x Solatube 160DS Tubular Daylighting Systems

Testimonial

"Vision Australia's new Coorparoo building is the flagship in the organisation in achieving green and sustainable initiatives. Solatube Daylighting Systems are a fundamental ingredient in assisting us achieve these initiatives.

Solatube Daylighting Systems provide natural light, a comfortable climate and environment for clients and staff.

Solatube Australia has helped us with our energy savings and construction costs, and has created a safe and productive environment for our clients and staff."

Gerrard Gosens
Special Projects Manager
